## FREMANTLE CEMETERY CHAPEL OF THE HOLY APOSTLES & OUR LADY OF THE ANGELS CHAPEL

- 1,032 casket spaces
- 360 niche spaces
- Located in Fremantle, Western Australia.
- Granite and polished stone finishes are complemented by seven granite-carved statues.
- Covered terraces lined with stone columns create a calming exterior environment.
- Sunlit chapels with statues, floral features, and mosaic art from Italy evoke a spirituality and provide a peaceful environment.
- Craftsmanship in materials and construction helps to convey the sanctity and purity of both the interior and exterior spaces.

## BOX HILL CEMETERY COMMUNITY MAUSOLEA

- 346 casket spaces
- 134 niche spaces
- Box Hill Cemetery, a National Trust dating back to 1873, is in a suburb of Melbourne, Victoria, Australia.
- This exterior mausoleum pays respect to the nearby Byzantine-style columbarium through the use of brick cladding at the structural columns.
- The relationship created between the landscape and mausoleum generates vistas similar to those of the existing architecture.
- The prominent roof plane, both as a solid element and a trellis feature, responds to the Australian environment, and helps to embody the space.

## KARRAKATTA CEMETERY CHAPELS AND GARDEN MAUSOLEA

- 2,372 crypt spaces
- 104 niche spaces
- Karrakatta Mausoleum was the first mausoleum built in Western Australia
- The elegant interiors of the chapels present an intriguing contrast to the earth-toned stucco, brick, and granite exterior character of the site.
- The tile roof seen in the Karrakatta architecture adds to both the old-world, Tuscan ambience, and to the theme of warm materials in allusion to the Australian environment.
